

# Article 6 Amendment

Chris Loreti

Precinct 7

This amendment adds to the end of the first sentence of Section 1 the phrase:

"and so long as said station is an auto service station that provides services in at least one service bay"

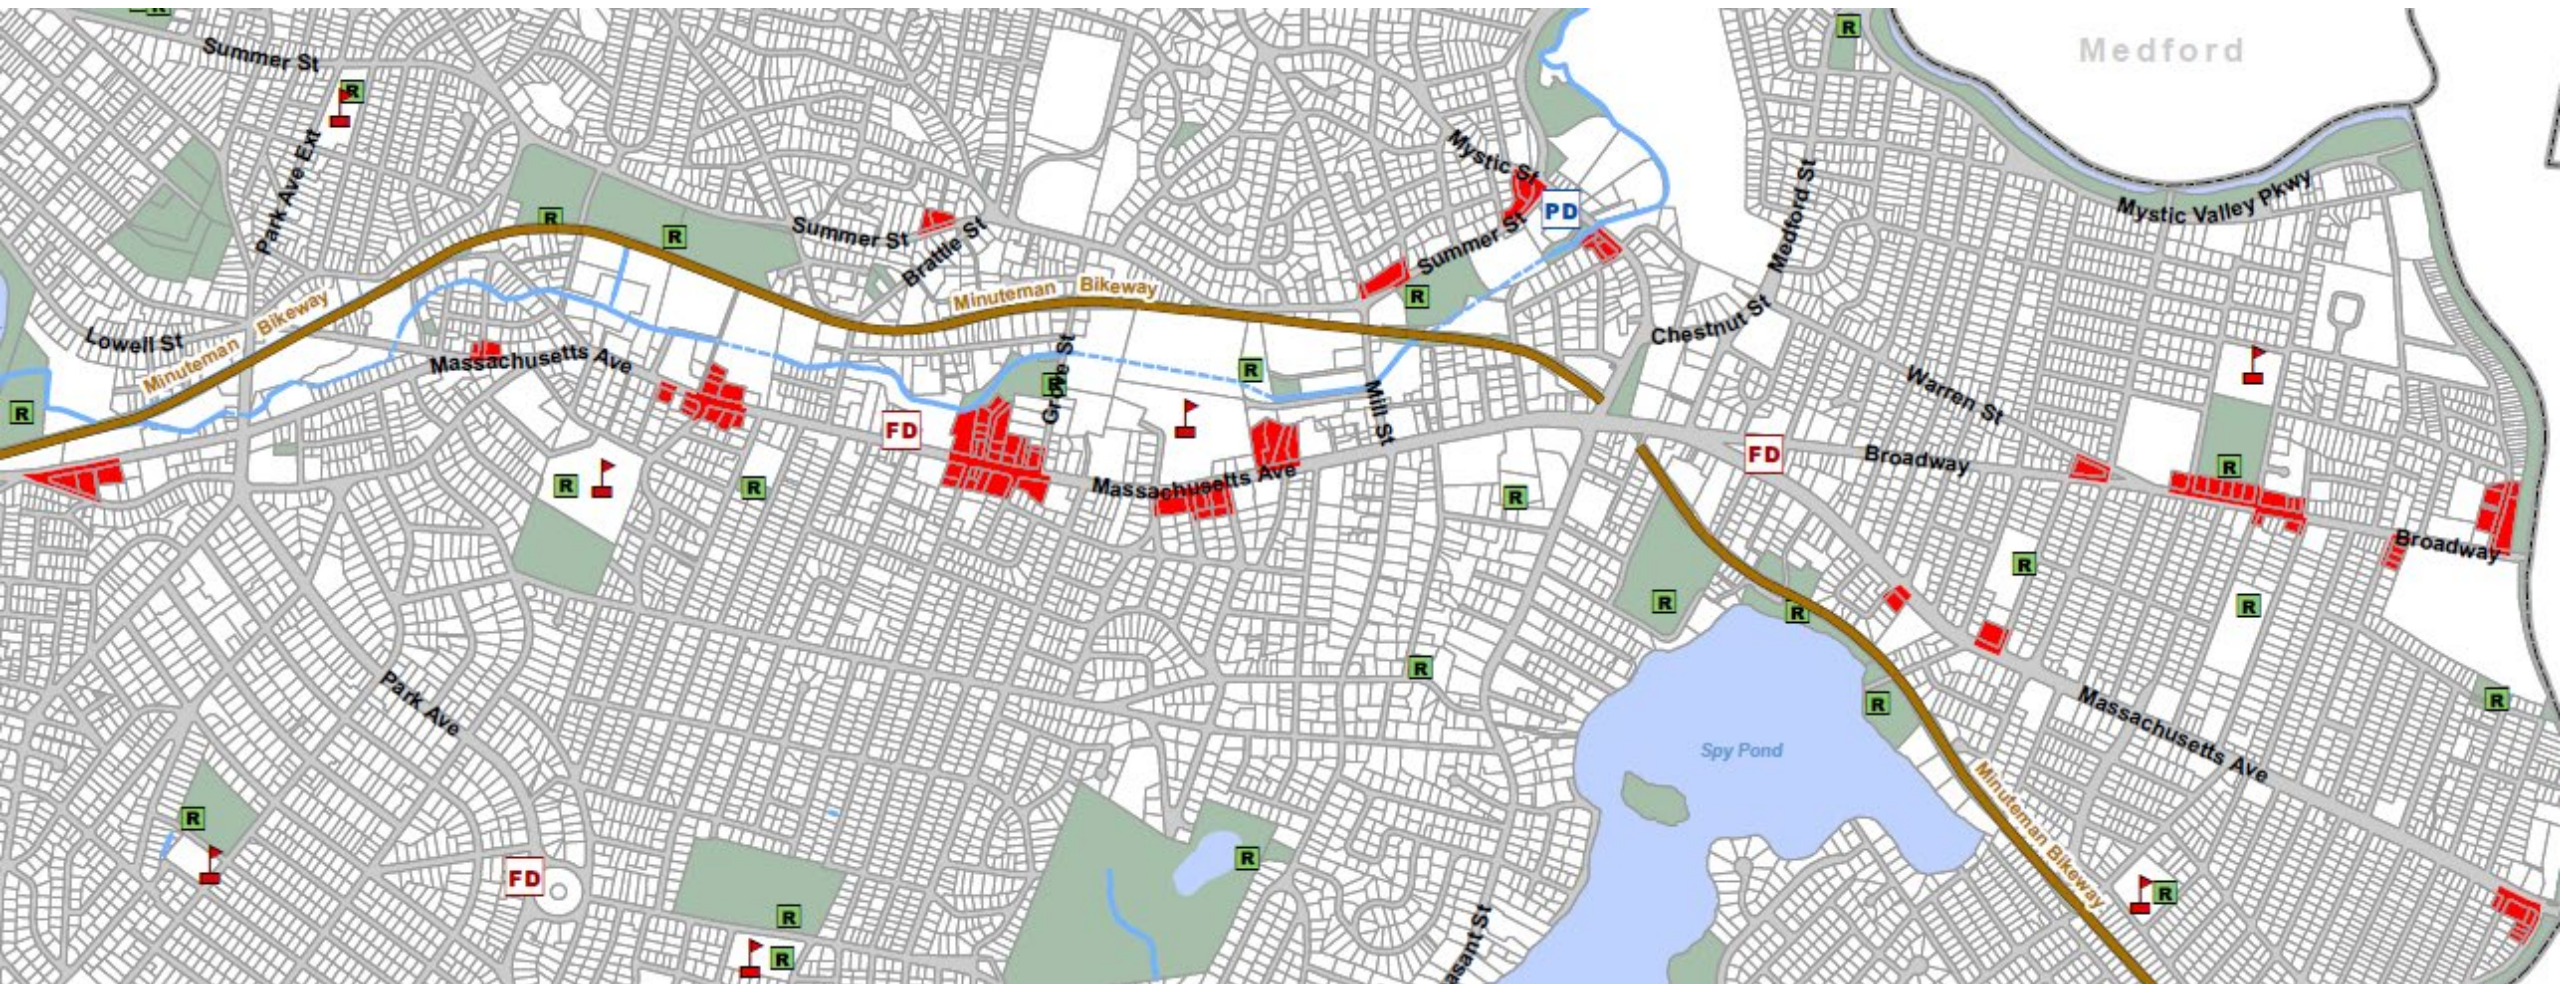

Unamended, Article 6 would allow self-serve gas stations/mini-marts in town if they include a single full-serve gas pump.

The Article 6 Amendment will allow self-serve pumps only at gas stations that provide vehicle services such as repairs and inspections.

Gas stations may be permitted on any of the lots shown in red. Self-serve will not be limited to existing gas station locations.
